

The background of the entire image is a long-exposure photograph of a starry night sky. It features numerous curved, concentric star trails in shades of white, blue, and purple, suggesting a long exposure taken from a fixed point on Earth. The trails are most prominent in the upper half of the image and become more sparse towards the bottom.

Learn about the night sky at a

Public Planetarium Show

Thursday nights

7:00 PM – 8:00 PM
