SOCIETY OF PHYSICS STUDENTS

An organization of the American Institute of Physics

The background of the entire image is a long-exposure photograph of a starry night sky. It features numerous curved, concentric star trails in shades of white, blue, and purple, suggesting the Earth's rotation. The trails are most prominent in the upper half of the image and become more sparse towards the bottom.

Learn about the night sky at a

Public Planetarium Show

Thursday nights

7:00 PM – 8:00 PM

Admission: \$5 cash
